JEEVIRAJ V

CYBERSECURITY ANALYST • ETHICAL HACKER • SOC & DFIR SPECIALIST

+91 85240 87686 | jeevicyber28@gmail.com | Coimbatore, Tamil Nadu | linkedin.com/in/jeevi-raj-3bb912338 | github.com/jeevicyber28 | jeevicyber28.github.io

EDUCATION

Sri Shakthi Institute of Engineering and Technology 2024 – 2028 | Coimbatore, TN

B.E. Computer Science and Engineering (Cyber Security) • 3rd Year (5th Sem) **CGPA: 8.01 / 10.0** • 0 Arrears

HSC (Class XII): Spark Matric Higher Secondary School, Vellore – **83%** **SSLC (Class X):** Govt Higher Secondary School, Thiruvannamalai – **78%**

TECHNICAL SKILLS

Languages & Core:	Python, Java, Bash Scripting, SQL, JavaScript, C/C++, Linux (Kali, Ubuntu), Git/GitHub
Security & Analysis:	SOC Operations (Tier 1/2), Vulnerability Assessment (VAPT), Web App Security (OWASP Top 10), Network Forensics, Incident Response (DFIR), Threat Hunting, Cryptography, Steganography
Security Tools & SIEM:	Splunk, Wazuh SIEM, Burp Suite, Wireshark, Nmap, Autopsy Forensics, Ghidra, Scapy, Docker

COMPETITIVE ACHIEVEMENTS & CTF HONORS

Team BitBr34kers Core/Captain

- **1st Place Champion** – Mirage CTF 2.0 (Amrita Vishwa Vidyapeetham) • 16-hr Hackathon, Rank #1 of collegiate teams (9,108 pts, 53 solves).
- **Grand Finale Finalist (Top 10)** – Hackers Gambit CTF • Selected for 24-hr Offline Grand Finale at Jaihind College, Maharashtra (34,050 pts).
- **Top 6th Place Global** – $N1PH3RS 3.0 / Exorcists × TamilCTF • St. Joseph's College; scored 2,428 pts across Web/Pwn/Crypto; won internship.
- **1st Place Winner** – Sri Shakthi Intra-College CTF • Championed internal tournament across all collegiate engineering branches.
- **2nd Prize Winner** – SUSTAINVERSE 2K26 • 24-hour national hackathon held at DMI College of Engineering, Chennai.
- **1st Place Champion** – AURA CTF (Mahendra Engineering College) • 6-hr sprint; awarded exclusive industry Cybersecurity Internship.
- **Rank #6 Globally (799 Teams)** – CSS CTF 2026: Return of Nexus • Cybersecurity Society Sydney (Australia); 40-hr sprint (2,066 pts).
- **Rank #6 International** – Mirage CTF International • Awarded cybersecurity internship with K7 Academy & cash vouchers.
- **Solo Winner & Vouchers** – GopwnIt CTF • Won n8n Cloud Subscription, Cash vouchers & Thunder Cipher Award.
- **4th Place (Inaugural CTF)** – Dooms CTF • Jerusalem College of Engineering; inaugural competitive security milestone.

INTERNSHIPS & EXPERIENCE

BCBuzz Technologies – Cyber Guard CMS Penetration Testing Intern May 2026

- Conducted rigorous web application and CMS penetration testing; identified IDOR, CSRF, and injection vectors.
- Drafted professional vulnerability assessment and penetration testing (VAPT) reports with actionable remediation strategies.

Prodigy InfoTech – Cybersecurity Intern Apr 2026

- Implemented custom cryptographic utilities in Python, including Caesar cipher crackers and pixel manipulation image encryption.
- Analyzed keystroke logging behaviors and developed host-based detection mechanisms in controlled virtual testbeds.

SkillCraft Technology – Cybersecurity Intern Apr 2026

- Performed network traffic analysis and protocol dissection using Wireshark; diagnosed anomalous TCP/UDP connection bursts.
- Executed automated port scanning and service fingerprinting with Nmap; benchmarked baseline security postures.

KEY PROJECTS

HostelFix – Smart Hostel Security & Monitoring Platform *Node.js, Express, PostgreSQL, Python, YOLO, OpenCV, JWT, Socket.IO*

- Architected full-stack security portal featuring RBAC authentication across Admin, Warden, Student, and Security roles.
- Implemented digital gate-pass system with cryptographic QR validation and integrated YOLO/OpenCV face & fire/smoke detection.

AI-Based Network Intrusion Detection System (AI-NIDS) *Python, FastAPI, React, TypeScript, Scikit-learn, Scapy, SQLite*

- Engineered ML-driven NIDS model achieving high accuracy on the NSL-KDD dataset using Decision Tree & Random Forest classifiers.
- Built live telemetry monitoring dashboard streaming real-time Scapy packet capture analysis via high-throughput WebSockets.

VERIFIED CERTIFICATIONS

- **Certified LLM Security Expert (CLLMSE)**– Red Team Leaders
- **Foundations of Cybersecurity**– Google / Coursera
- **Introduction to Cybersecurity & Networking**– Cisco Networking Academy
- **Career Essentials in Data Analysis**– Microsoft & LinkedIn
- **API Pentesting & Bug Bounty 101**– CappricioSec
- **OWASP Chapter Meetup**– Kumaraguru College
- **24+ Verified CTF & Academic Honors**
